

HEXAGONAL *tapered*

Having the largest taper of any of our Symmetry Series enables the hexagonal pole to stand out as a very visible vertical component in either a roadway or area lighting scenario. Designed with a 4 3/4" flat to flat tip, it can be used as either a delicate post top or a more substantial arterial pole when teamed with arm mounted luminaires. It is available either in economical mold finish or more upscale decor colors in both etched or polished finishes.
