

THE NEW ORLEANS JR.

M I L L E N N I U M S E R I E S

Fluted Extruded Aluminum Shaft and Cast Aluminum Base

Description

The New Orleans Junior is as its name denotes, a smaller version of our original New Orleans post, approximately 20% smaller, this pole is ideal for slightly lighter duty post top requirements. When combined with its larger sibling, designers may plan for any scale of lighting.

King is proud to introduce this pole in economical aluminum using a 16 flute non-tapered extruded shaft permanently attached to a heavy walled cast aluminum base. The pole shall be King Luminaire Catalogue Number KM91FE-XX.

Material

The pole shall be shipped as a one piece unit with heavy wall cast aluminum base and a thick wall **16 flute aluminum extruded non tapered shaft**. All hardware shall be corrosion resistant stainless steel. Anchor bolts shall be hot dip galvanized.

Dimensions

The pole shall be XX ft. in height with a 16" diameter base. It shall be supplied complete with a tamper resistant door and a 1/4"-20NC grounding stud. A tenon shall be provided at top of shaft, 3-1/2" OD x 3-1/2" long. Other size tenons available upon request.

Installation

The pole shall be supplied complete with 4 anchor bolts, 3/4" x 27", 55000 PSI minimum yield strength, galvanized to ASTM A-153, with a threaded end, 2 oversized washers and 2 hex nuts for double nutting. Anchor bolt certification available upon request.

Finish

Pole shall be primed using one coat industrial wash primer and one coat recoatable epoxy primer. **KINGKOAT** finish paint system to be applied as factory finish paint. Paint specifications available upon request.

Fluted Formed Aluminum Shaft and Cast Aluminum Base

Description

The New Orleans Junior is as its name denotes, a smaller version of our original New Orleans pole. Approximately, 20% smaller, this pole is ideal for slightly lighter duty post top requirements. When combined with its larger sibling, designers may plan for any scale of lighting.

King is proud to introduce a tapered aluminum version of the original design – a one piece combination of a 16 flute formed aluminum shaft permanently attached to a heavy wall cast aluminum base. The pole shall be a King Luminaire Catalogue Number KM91FF-XX.

Material

The pole shall be shipped as a one piece heavy wall cast aluminum base with a **16 flute aluminum formed tapered shaft**. All hardware shall be corrosion resistant stainless steel. Anchor bolts shall be hot dip galvanized.

Dimensions

The pole shall be XX ft. in height with a 16" diameter base. It shall be supplied complete with a tamper resistant door and a 1/4"-20NC grounding stud. A tenon shall be provided at top of shaft, 3-1/2" OD x 3-1/2" long. Other size tenons available upon request.

Installation

The pole shall be supplied complete with 4 anchor bolts, 3/4" x 27", 55000 PSI minimum yield strength, galvanized to ASTM A-153, with a threaded end, 2 oversized washers and 2 hex nuts for double nutting. Anchor bolt certification available upon request.

Finish

Pole shall be primed using one coat industrial wash primer and one coat recoatable epoxy primer. **KINGKOAT** finish paint system to be applied as factory finish paint. Paint specifications available upon request.
